Base material	Plastic
Colours	white, black, gold, grey

DESCRIPTION

This switch-style remote control operates at 433 MHz and pairs with other compatible devices, such as the Luxion kinetic relay. It is easy to install and use.

batteries.

It must be used together with the corresponding receiver (controller) and can easily be applied in various scenarios, such as:

- switch controlling from one point
- switch controlling from two points
- switch controlling from multiple points
- wireless doorbell, etc.

Features

Double wireless remote-control switch that generates its own energy to transmit the signal.

- Wireless signal transmission at 433 MHz
- Kinetic self-generation of energy at the moment of pressing
- No wiring and no battery replacement
- Easy installation and use

Control and compatibility

Works only in combination with the corresponding receiver, such as the Luxion kinetic relay.

- Control from one, two or multiple points
- Can also be used as a wireless doorbell
