DESCRIPTION

The Luxion smart bulb is an LED bulb with an E27 base and white / RGB light, which you control from your mobile phone via the Smart Life Tuya app for iOS and Android.

Luxion smart LED bulbs work with Amazon Alexa and Google Assistant, so you can switch the lighting on and off and adjust it with voice commands.

- Brightness (dimmer) and light colour adjustment
- Colour temperature from 2700K to 6500K
- Smartphone control and voice control
- Timer and operating scenes

Features

Control the Luxion smart bulbs in your home with voice commands or directly from the Smart Life app on your phone.

- Dimmer function
- Control via smartphone
- Voice control
- Timer function
- Compatible with Amazon Alexa, Google Assistant and IFTTT

Brightness and colour adjustment

Through the app you choose the brightness level and the colour of the light in the room, according to your preferences.

Personalised lighting and ambience

Set up your home lighting just the way you like for a unique ambience. Get the lights ready for a party or other activities with friends and adjust the brightness to suit your mood, for a warmer and more welcoming space.

Voice control with Amazon Alexa and Google Home

Make everyday life easier and more comfortable with the Luxion smart bulb, controlled by voice commands via Amazon Alexa and Google Home.

- Amazon Alexa
- Google Assistant
- Example: “Alexa, turn off the light!” – “OK.”

Operating scenes

Create various scenes based on the time and conditions in which you want the bulb to switch on or off.

- Automatic switch-on every morning at 7:00, for an easier wake-up
- Movie scene at 10% brightness, for the ideal viewing ambience
